

I would certainly hate to see K-LOVE taken off the air in Lexington, Kentucky. I listen everyday on the way to and way home from work and it is so uplifting and gets my day started off right! It's a great vehicle to get the word out about upcoming Christian concerts and events in our community and not to mention the word of the Lord. I feel K-LOVE ministers to so many people each day and would hate to see that go away! I get so inspired when I'm in traffic and look over the person in the car next to me is singing along with K-LOVE just like me. Please don't take our K-LOVE away because they truly are "Positive & Encouraging"!!
